Grants from FEMA are available and the process of getting them is long. Pipe work was talked about along where the old Cumberland Farms was to take the overflow water from the Scantic and also some sort of shoring put up along the river from the old dam in back of Walt Blacks business by removing the top portion of the dam and using it somewhere else. Going along the river on Main St. a lot of cleanup needs to be done from Country Auto to Walt's Auto Body Shop. A lot of debris is along the banks, old cars, metal, batteries, etc., and we are concerned about the river protection act. A site visit by the committee will be done at a later date and letters will be sent out to do this cleanup. A follow-up site visit will be done on the cleanup. No date has been set up for this yet.
