

## REPORT OF THE TREE WARDEN

In the year 2005, members of the Highway Department removed a total of 82 trees that were dead or storm damaged. Mass Electric Co. funded the majority of trees felled by a tree service. Others were funded privately or by the town. The following lists show the types of trees and which streets they were removed from. Continued maintenance of the trees within the town reduces exposure to personal injury, power outages and in general improves the overall appearance of the town.
